

POWER WIDGET

BENCH REVISION A · COMPLETE SINGLE-SHEET SCHEMATIC

28 V design target / 9 A target / SELECTED USB PARTS: 5 A MAX

READING THE DRAWING

Dot = connected. Hop = no connection. Comma-separated pins are tied. NC = unconnected. J1 / P1 each appear in two sections.
Green = inline domain; blue = PC domain. GND_INLINE and GND_PC are separate. U2 is the signal isolation barrier.

82 components • 65 nets • 1 sheet • no off-sheet labels

Engineering draft; unbuilt and unqualified. Complete values / pin data: circuit.json. Editable circuit: KiCad project.
